

Meritor Parts

Meritor Part - Meritor is a leading international dealer which is proudly founded on a one hundred year custom of quality and service. They specialize in different modules, integrated systems and components to original equipment manufacturers and the aftermarket for the industrial and transportation sectors.

Meritor prides itself in the company's distinctive energy and thinks that this energy contributes to their competitive advantage in the global operations. The company values their clients and wishes to guarantee their success while anticipating their various requirements. Meritor starts with a philosophy that values diversity of individuals and their broad thought processes. Operating in 19 nations and hiring more than 11,200 people, Meritor encourages collaboration and innovation among a team of knowledgeable professionals.

By only employing future focused workers, Meritor strongly thinks these top-caliber individuals would be able to quickly get used to to changing surroundings and exhibit the commitment and performance required to be able to reach results in the competitive materials handling trade. The business empowers their teams to make sound business decisions to be able to improve the overall success of the company. In return, Meritor provides their workers various possibilities for personal and professional growth.

Their Advanced Engineering team is at the forefront of parts and system engineering that comprise drivelines, axles, suspension and braking systems for medium and heavy duty trucks, off-highway vehicles, buses, military vehicles and trailers. The Meritor Advanced Engineering team is developing. They started a new technical center in Bangalore, India in September 2009 so as to lead their advanced product development initiatives that represent the whole Asia Pacific region. This particular team is even responsible for supporting the needs of all their worldwide engineering staff.

The Quality team at Meritor is a dynamic and customer-focused group that is devoted to ensuring optimum development at their production plants and aftermarket distribution facilities that are situated on 5 continents and in 19 nations.

The supplier development network is specifically situated so as to support new business development. Regional teams are supported by international centralized specialties, initiatives and quality systems in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program encourages a fact-based, data-driven method to decision making within each and every aspect of the trade. The DFSS or Design for Six Sigma ensures product reliability in every region. The team is also comprised of transactional Green Belts who use Six Sigma tools to business techniques and apply lean techniques.
